Congratulations Providers!

* These rates were calculated using data from the NDHIS for children 13-15 years of age. This quarter's birthdate range (April 1, 2003 – March 31, 2006).

† Goal of 80% for one dose Tdap and one dose meningococcal, 90% for two doses of varicella and 80% for HPV series up-to-date (2 or 3 doses) for males and females

‡ HPV rate includes both males and females who up-to-date with the complete HPV vaccine series based on either the 2 or 3 dose schedule.
